

# Enrique García Nates Martín

Junior Web Security Analyst

Galapagar, Madrid, Spain +34-682 80 81 45

quiquegnates@gmail.com [www.linkedin.com/in/enrique-garcía-nates-martín](https://www.linkedin.com/in/enrique-garcía-nates-martín)

## PROFESSIONAL SUMMARY

Cybersecurity Analyst specialized in **Web Application Security** and **Penetration Testing**. Experience in vulnerability assessment, secure development practices, and technical reporting. Background in backend development with strong interest in offensive security and bug bounty research.

## EXPERIENCE

### Independent Security Research & Bug Bounty

*Security Researcher*

Jan 2026 - Present

Self-directed

- Conducted independent web security research and participated in bug bounty programs
- Identified and responsibly disclosed vulnerabilities in production environments
- Earned industry certifications to validate technical expertise

### Backend / Full Stack Developer

*Vlumex*

Oct 2025 - Dec 2025

Remote

- Backend development and API implementation using Node.js and Python
- Database integration and performance optimization
- Implementation of secure coding practices
- Technologies: Node.js, Python, HTTP, APIs

### Cybersecurity Analyst

*Diligize*

Jun 2025 - Sept 2025

Madrid | Hybrid

- Performed Web Application Penetration Testing (Black Box & Gray Box)
- Identified OWASP Top 10 vulnerabilities using Burp Suite, Nmap, and Nikto
- Delivered technical reports with remediation guidance
- Supported client remediation processes and security improvements
- Skills: Web Pentesting, OWASP, Burp Suite, Nmap, Technical Reporting

### Cybersecurity Intern

*Diligize*

May 2025 - Jun 2025

Madrid | Hybrid

- Assisted in vulnerability assessments and security testing
- Supported security documentation and reporting processes
- Collaborated with senior analysts on security initiatives

### Internship

*Indra Sistemas S.A.*

Oct 2023

Madrid

- Supported internal IT operations, improving availability and incident response times
- Assisted technical teams in infrastructure-related activities
- Developed teamwork skills and learned from professionals in the field

## EDUCATION

### Cybersecurity Bootcamp

*IronHack, Madrid*

2024-2025

Final Grade: 9.6/10

- Specialized training in Risk Analysis, Network Security, Forensics, and Ethical Hacking

## ACHIEVEMENTS

### Industry Certifications & Bug Bounty Programs

*Security Research*

2024-2026

Various Platforms

- Earned multiple industry-recognized certifications in web security and penetration testing
- Active participation in bug bounty programs with successful vulnerability disclosures
- Participated in Capture The Flag (CTF) competitions and security challenges

## PROJECTS

---

### VulnHunter Pro

*Custom vulnerability scanning tool developed in Python*

- Automated reconnaissance and detection of common web vulnerabilities (XSS, SQLi patterns, misconfigurations)
- Published as open-source project on GitHub: [github.com/KiritoAkerm/vulnhunter-pro](https://github.com/KiritoAkerm/vulnhunter-pro)
- Technology Used: Python, Security Libraries, Web Scraping

### Custom Honeypot Environment

*Security monitoring and threat intelligence gathering system*

- Designed and deployed a personal honeypot to analyze attack patterns
- Monitored and analyzed malicious traffic behavior
- Technology Used: Linux, Network Tools, Log Analysis

### Personal Security Lab

*Private testing environment for security research*

- Built and maintained environment for web exploitation and vulnerability research
- Developed custom tools for security testing
- Technology Used: Virtual Machines, Kali Linux, Various Security Tools

## TECHNICAL SKILLS

---

**Security Tools:** Burp Suite, Nmap, Nikto, Metasploit, OWASP ZAP, Wireshark

**Programming Languages:** Python, JavaScript, Node.js, Bash

**Web Technologies:** HTTP/HTTPS, REST APIs, JSON, HTML, CSS

**Databases:** MySQL, MongoDB, PostgreSQL

**Operating Systems:** Linux (Kali, Ubuntu), Windows

**Methodologies:** OWASP Top 10, Penetration Testing, Vulnerability Assessment

**Soft Skills:** Technical Reporting, Problem Solving, Independent Research, Team Collaboration

## LANGUAGES

---

**Spanish:** Native Speaker

**English:** Professional Working Proficiency (B2/C1) - Proven through technical report writing, client meetings, and professional presentations in English

## VOLUNTEERING

---

### Food Bank Volunteer

Food Bank "Operation Kilo" & Altius Foundation

2024-2025

- Organized food collection events and coordinated distribution of essential supplies
- Supported community outreach initiatives and logistics coordination
